

## SMART Board™ for Flat-Panel Displays interactive whiteboard

### A powerful visual tool

The SMART Board™ for *Flat-Panel Displays* interactive whiteboard includes an interactive overlay that attaches to your plasma or LCD flat-panel display, giving it whiteboarding capability. It blends interactivity with brilliant visuals, which makes it perfect for presenting and collaborating.

Powered by SMART Board software, the SMART Board for *Flat-Panel Displays* interactive whiteboard enables you to touch the screen to move through presentations, navigate websites or control computer applications. Then you can save all your work to print, e-mail or post it online.

Ideal for writing notes over videos and graphs, this interactive tool is a powerful and sophisticated addition to your meeting spaces.

### Fit for your flat-panel display

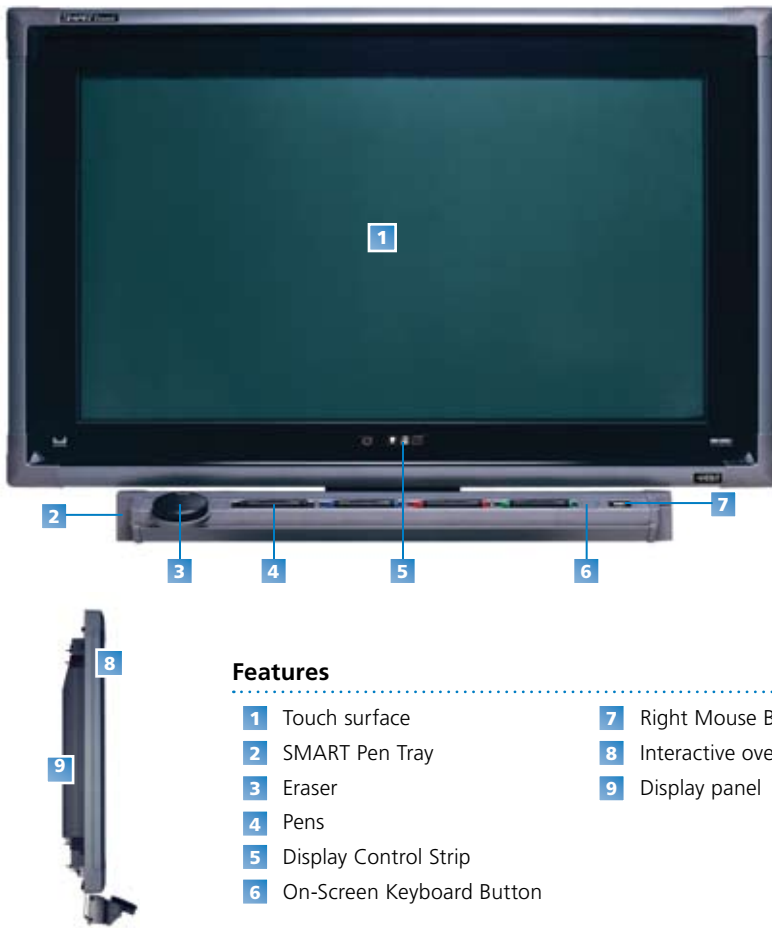

Compatible with a broad range of flat-panel display sizes and brands, SMART Board for *Flat-Panel Displays* interactive whiteboards use DVIT™ (Digital Vision Touch) technology to ensure precision touch without compromising image quality. The anti-glare surface also protects your panel. To attach the interactive overlay to your flat-panel display, use the secure mounting brackets that are provided.

### Supported flat-panel displays

SMART Board for *Flat-Panel Displays* interactive whiteboards are available for a wide range of plasma and LCD panels. For an up-to-date list, visit [www.smarttech.com/flatpanel](http://www.smarttech.com/flatpanel).

- **Attach easily to your flat-panel display**
- **Touch the screen to control your computer**

### Features

- |                             |                       |
|-----------------------------|-----------------------|
| 1 Touch surface             | 7 Right Mouse Button  |
| 2 SMART Pen Tray            | 8 Interactive overlay |
| 3 Eraser                    | 9 Display panel       |
| 4 Pens                      |                       |
| 5 Display Control Strip     |                       |
| 6 On-Screen Keyboard Button |                       |

### Key features

- **Touch system** – Write, erase and perform mouse functions with your finger – without special tools or a reduction in image quality. DVIT is the magic behind SMART’s proprietary digital touch system.
- **SMART Pen Tray** – Pick up a pen or the eraser, and the pen tray automatically detects which tools you’ve selected. Buttons activate the On-Screen Keyboard, right-click and help function.
- **Digital ink** – Write in digital ink over applications, websites and videos.
- **Save function** – Capture your work to SMART Board software as a screen shot that you can edit, or save your notes directly into several software applications, including Windows® versions of Microsoft PowerPoint®, Word and Excel®, or AutoCAD® software.
- **Display Control Strip\*** (install optional) – Control your display settings from the display.
  - Sleep Mode icon blanks screen to reduce image burn-in.
  - Input Source Select icon enables selection of video and image options.
  - Display Mode icon enables selection of screen-width options.
  - Panel Control Menu icon accesses panel remote-control options.
- **Protective surface** – Reduce glare and protect your display with a touch-sensitive surface.
- **Mounting brackets** – Attach the overlay securely to your display with the brackets provided.

\*Windows operating system only

### SMART Board software

Ever wonder what makes SMART Board interactive whiteboards so powerful? Meet SMART Board software – the real genius behind the world’s number one interactive whiteboard.

#### Notebook™ software

- Create, manage and save materials into a single, presentation-ready file. Export files to clients and colleagues. Integrate digital content, such as Adobe® Flash® files and audio and visual components into presentations. Arrange pages using the Page Sorter. Use Dual Page Display to view two pages simultaneously. You can draw, take notes, and attach files or link to objects and websites on either page.

#### Ink Aware

- Use a pen from the pen tray or a Pen button to write into Ink Aware applications, such as Microsoft Excel, PowerPoint® slides, Word files and AutoCAD, and save notes directly into these files.

#### SMART Board Tools

- Type with the On-Screen Keyboard, make a video file with the SMART Recorder, write over video using the SMART Video Player, and focus and prioritize concepts with the Screen Shade and Spotlight.

#### LinQ™ software

- Connect quickly between devices using a wired or wireless network. Use a laptop to share files and control applications on the interactive whiteboard (and vice versa).

#### Software system requirements

- Supports Windows, Mac OS and Linux® operating systems.
